

September 27th, 1926. 105,1218 Gibson

Received information from Lustig's real estate office that Hamborzsky is known there, as he called on three occasions so that he could get some work to do as salesman, but this was refused him because he is connected with the Halls Mills case, as a witness, and they don't want to be bothered by having reporters call up their office and be annoyed. Also that the last time Hamborzsky was seen by them was about three weeks ago. He lives somewhere in Astoria, L.I. known as the Crystal Garden Apartments, and is married and has children. That before going to Lustig's place for employment he worked for a real estate place in Potter Avenue known as Szilagyi Real Estate Co., and he was employed there for about a year. They believe he is not working at the present time. In their opinion Hamborzsky is well educated and honest.

With reference to completing my investigation regarding Mrs. Gibson's marriage and other records the District Attorney's Office does not go back as far as 1895; as this would require search in the county clerks office it will be impossible for me to complete this before Wednesday.

I then interviewed Frank Wirth of 1560 Broadway, former partner of Herman Blumenfield at the time of the U.S. Marine Million Dollar Circus and he informed me that at the time of the Circus he was in Pennsylvania and does not know very much about it. He did tell me that the letting out of concessions was handled by a man named Tom Hesson. He does not know where I can locate Hesson at the present time and the last time he had any information concerning him was at the beginning of the Sesqui affair in Philadelphia. He further informed me that he does not know where I could locate Blumenfield. Also that he will keep this matter in mind and should he be able to locate a photograph of Mrs. Gibson, which was sold by her at the time of her exhibition he will get in touch with Mr. Pfeiffer's office.

At about 8 P.M. in the evening Mr. Palzer called at the house but this time I was out trying to secure some information concerning Hamborzsky.
